

# LIVABLE CENTERS INITIATIVE

## 2021 Call for Projects Update

ARC

An aerial night photograph of a city street. The street is illuminated by streetlights, and there are light trails from cars moving through the frame. On the left side of the street, there are several multi-story buildings, some with lit-up windows and storefronts. A large parking lot is visible in the foreground on the left. On the right side, there are more buildings, including a large white building with a flat roof. The background shows a dense residential area with many small houses and trees. The overall scene depicts a vibrant urban environment at night.

# LCI Goals

- Require a mix of land uses
- Require Multiple transportation modes
- Extensive Public Involvement

The background image shows a vibrant city square. In the center is a large, ornate fountain with multiple water jets. Behind the fountain stands a grand, classical-style building with a central dome and columns. Flanking the central building are multi-story brick buildings with numerous windows and balconies. In the foreground, several people are walking around the fountain area, and there are benches and young trees. The entire scene is overlaid with a semi-transparent blue filter.
