ISSUE SUMMARY: **ARC Dues Increase**

FROM: Anna Roach, Executive Director

IMPORTANCE:

- The City of Atlanta and each of the 11 counties in the ARC provide an annual regional appropriation (dues) totaling \$ 1.10 per capita to fund the Commission’s work.
- ARC’s last dues increase was implemented in 2017 (from \$ 1.00 to \$ 1.10 per capita)
- Legislation specifies that increases after 2003, which was set at \$ 1.00, shall be based on the Consumer Price Index (CPI) and may be approved by the Commission.
- When the CPI exceeds the latest base year (2017) by 10%, the board may approve an additional \$ 0.10 increase in dues.
- Since the last dues increase in 2017, the CPI has increased by over 20%.
- The primary uses of ARC dues appropriations are:
 - Required match for federal funds
 - Cost of essential programs not federally funded (Natural Resources planning, etc.)
 - Board activities and board directed projects (LINK, RLI, etc.)
 - Legislative support activities
- ARC continues to see increases in federal funds allocated to major programs requiring additional regional appropriations to provide required matching funds.
- Other funding opportunities may periodically become available, but we are unable to pursue them if they require matching funds

ACTION REQUIRED:

Approval of the resolution increasing the rate of dues.
