TCC reviewed the draft goal at the June meeting and unanimously recommended approval of the DBE goal to TAQC.

3. **FIRST READ - FTA Transit Formula Policies Update** *Kofi Wakhisi, ARC*

The ATL Authority, ARC staff and the Transit Operators Group have been working to update the policies for several programs, including the 5307 formula program. Several of the changes are required per recent federal transportation bills. Staff will update the Committee on the status of these updates, with potential action scheduled for August.

Transportation Control Measures (TCMs) are transportation projects or programs which improve air quality and are codified into federal law through inclusion in Georgia's State Implementation Plan (SIP). ¹ A 10-minute period for public comments is designated at the beginning of each regular TAQC meeting. Each commenter must sign up before 10:30 AM on the meeting date. Each speaker will be limited to two minutes.
