EXHIBIT A

Scope of Services

I. General:

The work to be accomplished by the consultant is in support of the following ARC work program component:

Cost Center – 406ALR Long Range Transportation Planning

II. Purpose:

The Atlanta Regional Commission's land use model serves as a crucial tool in generating socioeconomic forecasting data for the ARC's Activity-Based Travel Demand Forecasting Model (ABM) and in formulating future growth scenarios that inform strategic planning decisions. The forecasting products include the employment, population, and households by traffic analysis zones (TAZs) for the Atlanta Region. Functioning as a spatial economic model specific to the Atlanta Region, the ARC land use model is designed to simulate the prospective distribution of activities such as industries, households, and government entities, as well as the space development undertaken by developers. This simulation is integral for both fine-grained socioeconomic forecasting at a local level and comprehensive policy analysis.

The ARC's land use models played a pivotal role in developing the S17 conformity forecasts in 2023. Currently, ARC is actively enhancing the model's functionalities to align with key planning scenarios, including considerations for climate change and forthcoming technological advancements. Particularly noteworthy is the need for immediate calibration of the model's parameters and coefficients in response to post-pandemic social behavior changes. This calibration becomes imperative upon the availability of new census data and post pandemic research results.

Simultaneously, there is a pressing requirement to update the model's base data and rigorously test the application in preparation for the upcoming major plan update scheduled between 2025 and 2026. This proactive approach ensures that the ARC's land use model remains a robust and reliable instrument, capable of providing accurate insights for strategic planning in the dynamic landscape of the Atlanta Region.

The purpose of this modeling service is to:

- Survey peer MPOs and gather pertinent data to refresh ARC modeling strategies;
- Conduct thorough research on post-pandemic changes and refine the model to simulate post-pandemic realities by precisely calibrating coefficients;
- Enhance the integration of ARC models and update the foundational data, laying the groundwork for upcoming conformity forecasting;

- Enhance model scenario functionalities to support ongoing ARC scenario planning efforts. Develop regional growth scenarios aligning with strategic planning priorities;
- Revise and update modeling documentation, simultaneously providing training sessions for ARC staff to adeptly apply the model in their work.

III. Modeling and Forecasting Area:

The Consultant shall perform all the necessary service for twenty-one Counties Atlanta Region including: Barrow, Bartow, Clayton, Cherokee, Cobb, DeKalb, Dawson, Douglas, Fayette, Fulton, Gwinnett, Henry, Rockdale, Carroll, Coweta, Forsyth, Hall, Newton, Paulding, Spalding, and Walton.

IV. Work and Services:

This section contains the scope of service. The Consultant shall do, perform and carry out, in a satisfactory and proper manner, as determined by the Atlanta Regional Commission (ARC), the following work and services.

Task 1: Comprehensive Exploration and Evaluation of Cutting-edge Forecast Models and Applications

Conduct a survey of leading peer Metropolitan Planning Organizations (MPOs) and outline the foremost models and methodologies employed in conformity forecasting and scenario planning. Evaluate the emerging technologies and platforms used in cutting-edge forecasting models. Compile a comprehensive report summarizing the findings from the survey and assessment. Provide clear and actionable recommendations for incorporating elements of advanced forecast models into the project. The insights gleaned from this report will serve as valuable input to refine and update the ARC long-term strategies for land use modeling and forecasting.

The product of this task is a report detailing the prominent methodologies and models utilized in the MPO forecasting and planning processes.

Task 2: Enhanced Landuse Model Update and Calibration Initiative

Collect, process, and update critical model base data, including parcels data, zoning data, local effects, growth constraints, and regional policies. Calibrate the landuse model by incorporating the latest Census data, updated ABM outputs, and transport costs to enhance the accuracy of the model. Additionally, space development calibration will also be performed using latest Dodge contraction data and parcel-level past development events data developed by ARC staff. The resulting refined model will serve as a crucial application for next small area forecast update. Develop draft S18 small area forecast scenarios will be done in 2025 to test and validate the updated model performance as a preparation of the next forecast update.

The product of this task is an updated ARC landuse model that is ready to be applied to develop next conformity forecast.

Task 3: Model Functional Enhancements for Scenario Planning

In response to the multifaceted challenges posed by climate change and the imminent transformative impact of new technologies, including rapid advancements in AI applications, ARC is prioritizing the development of robust planning scenarios. The primary objective of this task is to fortify regional resiliency. Specifically, we aim to enhance the functionalities of the ARC land use model, providing a more comprehensive simulation of the future.

This task involves a strategic refinement and expansion of the ARC land use model to adeptly respond to the dynamics of climate change and evolving technologies. The focus is on developing and implementing advanced environmental and benefit measures as direct model outputs. This augmentation will empower ARC to evaluate policy alternatives and scenario outcomes with greater precision. This task will be closely coordinated with the ongoing efforts of the ARC Climate Change Scenario Working Group to support broader climate change mitigation strategies and regional planning objectives. To ensure the reliability and effectiveness of the enhanced model, a testing phase will be conducted, involving the development of multiple scenarios.

This task is scheduled to commence in 2024 and is expected to be completed by 2025. The product of this task for this contract is a significantly enhanced ARC landuse model with functions to model above scenarios to prepare for the uncertainty of the future.

Task 4: Post Pandemic Model Update and Related Scenarios

In response to the transformative effects of the COVID-19 pandemic on time-series data and model assumptions, it is imperative to conduct an in-depth investigation into the evolving dynamics and trends that necessitate adjustments to the ARC land-use model. This adaptation should effectively incorporate changes impacting the simulation of future growth, such as the reduced demand for commercial real estate space, changed transportation and activity patterns, reduced in-person work at traditional worksites, and shifts in residential preferences. To address these shifts, the contracted task involves a comprehensive approach. First, gather pertinent data related to the post-pandemic landscape, ensuring a thorough understanding of the altered dynamics. Subsequently, revisit and reassess the existing ARC modeling assumptions in light of the newfound realities, taking into account the nuanced changes observed in various sectors. Calibration of model parameters and coefficients will be done to ensure a precise representation of these new dynamics.

This task includes not only incorporating the identified shifts but also fine-tuning the model to align with the current and anticipated conditions. Furthermore, the task involves the development of several post-pandemic scenarios designed to test the adaptability and reliability of the updated model. Each scenario should reflect different aspects of the post-pandemic landscape, allowing for a comprehensive analysis of potential future trajectories. The results of these scenarios will

be analyzed and documented to provide valuable insights into the model's efficacy and the broader implications for land-use planning.

The deliverables of this task encompass an updated ARC land-use model that accurately reflects post-pandemic realities, accompanied by a set of modeling scenarios with comprehensive analysis of the results.

Task 5: Modeling Integration Improvements and Application

Collaborate with ARC ABM team to improve the integration of landuse model and transportation model to better simulate regional growth and transportation system. Refine the data exchange protocols between landuse model and ABM. Define and specify quick-response alternative process for approximating ABM skim outputs to improve scenario modeling efficiency.

Conduct sensitivity testing on the updated landuse model to assess its responsiveness to various inputs and changes. Develop various growth scenarios and analyze the modeling results to support regional planning priorities. Develop regional needs assessment scenarios if the decision is made to start the S18 conformity forecast during this contract period.

This task is contingent on the progress of ARC ABM development. The preliminary phase will commence in 2024, with substantial work scheduled for completion in 2025. The products of this task for this contract are an updated landuse model with enhanced integration with ARC transportation models, and various landuse growth scenarios with result analysis and associated documentation.

Task 6: ARC staff training and documentation

Complete the documentation with details regarding the model update, calibration procedures, and the development of growth scenarios, along with the associated analyses. This documentation will serve as a comprehensive guide for ARC staff, offering insights into the intricacies of the modeling methodology and algorithm, the operational aspects of the ARC land-use model, and the process of setting up and scrutinizing growth scenarios. Additionally, staff will be trained on the application of the ARC land-use model, covering aspects such as model scenario setup, execution, and interpretation of results. The primary objective is to empower ARC staff with the knowledge and skills required for proficient utilization of the land-use model.

The products of this task are ARC staff training and documentation for ARC landuse model application.

Except where specifically prohibited by law, all reports, studies, records, and computations prepared by or for the Consultant under this agreement shall be made available to authorized representatives of ARC and the Concerned Funding Agencies for inspection and review at all reasonable times in the Consultant's office where data is normally accumulated. Approval and acceptance of such material shall not relieve the Consultant of its professional obligation to correct, at its expense, any errors found in the work unless such errors can be shown to be caused by inaccurate or incomplete information provided by ARC.
16. Maintenance of Cost Records. The Consultant shall maintain all books, documents, papers, accounting records and other evidence pertaining to costs incurred on the Project and shall make such material available at all reasonable times during the period of the agreement, and for three years from the date of final payment under the agreement, for inspection by ARC, the Concerned Funding Agencies, and if the work and services to be performed under this agreement is wholly or partially funded with federal funds, the Comptroller General of the United States, or any of their duly authorized representatives. The Consultant shall include the provisions of this paragraph in any subcontract executed in connection with this Project.
17. No Obligation by the Federal Government. ARC and the Consultant acknowledge and agree that, notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying contract, absent the express written consent by the Federal Government, the Federal Government is not a party to this contract and shall not be

subject to any obligations or liabilities to ARC, the Consultant, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying contract.

The Consultant agrees to include the above clause in each subcontract financed in whole or in part with Federal assistance. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

18. Status as Independent Consultants. Nothing contained in this agreement shall be construed to constitute the Consultant or any of its employees, servants, agents or subcontractors as a partner, employee, servant, or agent of ARC, nor shall either party to this agreement have any authority to bind the other in any respect, it being intended that each shall remain an independent Consultant.
19. Consultant's Personnel. The Consultant represents that it has, or will secure at its own expense, all personnel required to perform the services under this agreement. Such personnel shall not be employees of ARC, nor shall such personnel have been employees of ARC during any time within the twelve-month period immediately prior to the date of this agreement, except with the express prior written consent of ARC. Further, the Consultant agrees that no such former ARC employees shall be involved in any way with the performance of this agreement, without the express prior written approval of ARC.
20. Employees' Rate of Compensation. 21. Interest of Consultant. The Consultant covenants that neither the Consultant, nor anyone controlled by the Consultant, controlling the Consultant, or under common control with the Consultant, nor its agents, employees or Consultants, presently has an interest, nor shall acquire an interest, direct or indirect, which would conflict in any manner or degree with the performance of its service hereunder, or which would prevent, or tend to prevent, the satisfactory performance of the Consultant's service hereunder in an impartial and unbiased manner. The Consultant further covenants that in the performance of this agreement no person having any such interest shall be employed by the Consultant as an agent, Consultant or otherwise. If the Consultant contemplates taking some action which may constitute a violation of this paragraph, the Consultant shall request in writing the advice of ARC, and if ARC notifies the Consultant in writing that the Consultant's contemplated action will not constitute a violation hereof, then the Consultant shall be authorized to take such action without being in violation of this paragraph.
22. Interest of Members of ARC and Others. No officer, member or employee of ARC, and no public official of any local government which is affected in any way by the project, who exercises any function or responsibilities in the review or approval of the project or any component part thereof, shall participate in any decision relating to this agreement which

affects his or her personal interests or the interest of any corporation, partnership or association in which he or she is directly, or indirectly, interested; nor shall any such officer, member or employee of ARC, or public official of any local government affected by the project, have an interest, direct or indirect, in this agreement or the proceeds arising therefrom.

23. Officials Not to Benefit. No member of or delegate to the Congress of the United States of America, resident commissioner or employee of the United States Government, shall be admitted to any share or part of this agreement or to any benefits to arise herefrom.
24. Compliance with Requirements of the Concerned Funding Agencies. The Consultant shall be bound by the applicable terms and conditions of the Grant Contract between ARC and the Concerned Funding Agencies which said Grant Contract is on file in the offices of ARC and is hereby made a part of this agreement as fully as if the same were attached hereto. ARC will notify the Consultant in writing of any applicable changes within a reasonable time after ARC has received appropriate notice of such changes from the Concerned Funding Agencies.
25. Federal Changes. Consultant shall at all times comply with all applicable U.S. DOT regulations, policies, procedures and directives as they may be amended or promulgated from time to time during the term of this contract. Consultant's failure to so comply shall constitute a material breach of this contract.
26. Rights in Documents, Materials and Data Produced. For purposes of this agreement, "data" includes, but is not limited to, writings, sound recordings, computer programs, photographs, films, videotapes or other graphic representations and works of a similar nature. ARC and the Concerned Funding Agencies shall have the right to use same without restriction or limitation and without compensation to the Consultant other than as provided in this agreement. The Consultant acknowledges that matters regarding rights to inventions and materials generated by or arising out of this agreement may be subject to certain regulations issued by the Concerned Funding Agencies.
27. Data and Software Licensing. During performance of the work covered by this Agreement ARC may provide certain data or software products, such as aerial photography, roadway analytics/traffic data or commercially available planning data and software, to the Consultant that have been obtained from various sources under specific licensing agreements. The Consultant acknowledges that any data or software that ARC may provide hereunder is provided as a non-exclusive, non-transferable, limited license for the Consultant or its Sub-consultants to use the data or software for the work covered by this Agreement only. The Consultant shall not redistribute, republish or otherwise make this data or software available to any party not covered by this Agreement. The Consultant or any Sub-consultants shall not use this data or software for any work not covered by this Agreement. The Consultant further acknowledges that upon completion of the project covered by this Agreement all data and software provided by ARC will be returned to ARC and all copies of the data or software residing on the Consultant's or Sub-consultant's computer systems will be removed.

28. Publicity. Articles, papers, bulletins, reports or other material reporting the plans, progress, analysis or results and findings of the work conducted under this agreement shall not be presented or published without first submitting the same to ARC for review and comment. No such presentation shall be made until comments have been received from ARC regarding such review; provided, however, if such comments have not been received by the Consultant within thirty calendar days after such submission, it shall be presumed that ARC has no objection thereto. ARC's comments, objections, reservations or disagreements regarding such material shall be accommodated as ARC shall specify.
29. Assurances. The Consultant hereby assures and certifies that it will comply with the appropriate regulations, policies, guidelines and requirements (as applicable), including, but not limited to, 2 CFR Part 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards," 48 CFR 31, "Contract Cost Principles and Procedures," Executive Order 12372, "Intergovernmental review of Federal programs," U.S. Office of Management and Budget Circular Nos. necessary to effectuate this assurance. The Consultant shall take affirmative action to ensure that qualified applicants are employed and qualified subcontractors are selected, and that qualified employees are treated during employment, without regard to their age, handicap, religion, creed or belief, political affiliation, race, color, sex or national origin. Such action shall include but not be limited to the following: employment, upgrading, demotions, or transfers; recruitment or recruitment advertising; layoffs or terminations; rates of pay or other forms of compensation; selection for training including apprenticeship, and participation in recreational and educational activities.

31. Other Requirements. In addition to other requirements of this agreement, the Consultant agrees to comply with, and shall be bound by, the applicable terms and conditions of all state and federal laws or regulations governing and defining resources, project administration, allowable costs and associated procurement standards, and the ARC Disadvantaged Business Enterprise Plan (in compliance with 49 CFR Part 26), as appropriate. In addition, the Consultant further agrees to comply with the DBE Utilization Plan submitted to ARC as part of its proposal. All such documents are hereby made part of this agreement fully as if the same were attached hereto.

The Consultant shall not discriminate on the basis of race, color, national origin, or sex in the performance of this agreement. The Consultant shall carry out applicable requirements of 49 CFR 26 in the award and administration of DOT assisted agreements. Failure by the Consultant to carry out these requirements is a material breach of this agreement, which may result in the termination of this agreement or such other remedy as the recipient deems appropriate.

The Consultant agrees to pay each subcontractor under this prime agreement for satisfactory performance of its agreement no later than thirty business days from the receipt of each payment that said prime Consultant receives from ARC. The prime Consultant agrees

further to return retainage payments to each subcontractor within thirty business days after the subcontractor's work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of ARC. This clause applies to both Disadvantaged Business Enterprises and non-Disadvantaged Business Enterprises.

32. Termination for Mutual Convenience. ARC or the Consultant may terminate this agreement in whole or in part when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall, through formal written amendment, agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated. The Consultant shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. ARC shall evaluate each noncancelable obligation to determine its eligibility for inclusion in project costs. Settlement will be made in accordance with the terms and conditions of this agreement. ARC shall allow full credit to the Consultant for the ARC share of the non-cancelable obligations, properly incurred by the Consultant prior to termination.
33. Termination for Convenience. ARC may terminate this agreement, in whole or in part, at any time by giving written notice to the Consultant of such termination and specifying the effective date thereof, at least fifteen days before the effective date of such termination. In that event, all information and material produced or collected under this agreement and/or used in the performance of the scope of services shall, at the option of ARC, become its property. If this agreement is terminated by ARC as provided in this paragraph, the Consultant will be reimbursed for the otherwise allowable actual expenses incurred by the Consultant up to and including the effective date of such termination, as authorized in Attachment "B." The Consultant shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. ARC shall evaluate each noncancelable obligation to determine its eligibility for inclusion in project costs.
34. Termination of the Agreement for Cause. If the Consultant, due to its action or failure to act, shall fail to fulfill in a timely and proper manner its obligations under this agreement, or if the Consultant has or shall violate any of the covenants, agreements, representations or stipulations of this agreement, ARC shall thereupon have the right to terminate this agreement by giving written notice to the Consultant of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. In such event, all information and materials collected or produced under this agreement and/or used in the performance of the scope of services shall, at the option of ARC, become its property. The Consultant shall be entitled to receive just and equitable compensation for any satisfactory work completed under the Scope of Service up to and including the effective date of termination as authorized in Attachment "B." Notwithstanding the foregoing to the extent provided by law, the Consultant shall not be relieved of liability to ARC for damages sustained by ARC by virtue of any breach of this agreement by the Consultant and ARC may withhold any payments to the Consultant for the purpose of set-

off for damages caused by the Consultant's breach, until such time as the exact amount of damages to ARC from the Consultant is determined.

35. Termination Due to Non-Availability of Funds. Notwithstanding any other provision of this agreement, in the event that any of the funds for carrying out the functions to which this agreement relates do not become available, then, upon written notice to the Consultant, this agreement may be immediately terminated without further obligation of ARC.
36. Suspension Due to Non-Availability of Funds. The Concerned Funding Agencies have the right to suspend financial assistance for this project. Consequently, ARC reserves the same right regarding this agreement. Such suspension would cause the withholding of further payments and/or prohibiting the Consultant from incurring additional obligations during the suspension period. However, unless notified in writing to the contrary, such suspension would not invalidate obligations otherwise properly incurred by the Consultant prior to the date of suspension to the extent that they are noncancelable.
37. Disputes and Appeals. Any dispute concerning a question of fact arising either from a Consultant or subgrant selection decision, or under a Consultant or subgrant contract, once executed, shall be decided by the ARC Chief Operating Officer who, after advisory consultation with all appropriate ARC officials (e.g. General Counsel, etc.), shall promptly reduce such decision concerning the question of fact to writing and mail, or otherwise furnish a copy thereof, to the disputing party (i.e., as appropriate, either: the unsuccessful proposer; or the Consultant or subgrantee). The Chief Operating Officer shall concurrently fully advise the disputing party, in writing, of the provisions outlined herein below concerning the disputing party's right to appeal the decision to the ARC Executive Director. A copy of all such documents shall also be furnished to the ARC Office of General Counsel.

The decision of the Chief Operating Officer shall be final and conclusive unless, within ten (10) calendar days of receipt of such written decision, the disputing party mails or otherwise furnishes a written appeal concerning the question of fact to the ARC Executive Director, who shall arrange a formal hearing within twenty (20) calendar days after receipt of such appeal. Both the appealing party and the Chief Operating Officer shall be notified no less than five (5) calendar days in advance of the hearing and shall have the right to present witnesses and give evidence concerning the question of fact at such time. Within twenty (20) calendar days after the hearing, the Executive Director shall make a decision concerning the question of fact in writing to the appealing party and to the Chief Operating Officer. A copy of the decision shall also be furnished to the Office of General Counsel.

The decision of the Executive Director concerning the question of fact shall be final and conclusive unless determined by the cognizant grantor agency or agencies, or the Comptroller General of the United States, or a court of competent jurisdiction to have been arbitrary, capricious, an abuse of discretion or otherwise not in accordance with the law.

Pending final decision of an appeal to the Executive Director under a Consultant or subgrant contract already executed, the Consultant or subgrantee shall proceed diligently with the performance of the contract and in accordance with the Chief Operating Officer's decision.

Nothing in the foregoing shall be construed as making final the decisions of the Chief Operating Officer or the Executive Director as such decision relate to question of law.

38. Force Majeure. In no event shall either Party be responsible or liable for any failure or delay in the performance of its obligations hereunder upon the occurrence of any circumstance beyond the control of either party, such as acts of God, war, acts of terrorism, government regulations, disaster, strikes, work stoppages, accidents, mandatory quarantines, pandemics, curfews, or other restrictions of movements, or civil disorder, to the extent that such circumstances make it illegal or impossible for either Party to fulfill the terms of this Agreement. Any termination or delay in the performance of this Agreement without liability is conditioned upon delivery of written notice to the other party setting forth the basis for such termination as soon as reasonably practical, but in no event longer than ten (10) days, after learning of such basis. It is understood that both Parties shall use reasonable efforts which are consistent with industry standard to fulfill the performance of this agreement to the extent feasible.
39. Applicable Law. This agreement shall be deemed to have been executed and performed in the State of Georgia. All questions of interpretation and construction shall be construed by the laws of Georgia.

IN WITNESS WHEREOF, the Consultant and ARC have executed this agreement as of the day first above written.
